

Doshisha Women's College was planning its four-year course, he volunteered to give a course of lectures on the principles of liberal arts education to the faculty, which had a profound influence on shaping the curriculum. For example, it was at his suggestion that a required course in Human Relations was included in the freshman year with a view to helping students adjust to social life.

Although his premature loss is irreparable, I am sure that the ideals he has instilled into many generations of students will continue to influence both the Doshisha and society.

For Robert Grant

Philip Williams

Cheers for you now, who never curried favor
 Held well aloof / involved, yet all the while
 You never turned away from common labor.

Your brusque / authentic style
 Has often put me off, I must confess, Sir.
 But now I see that I will always savor
 That special taste you shared with us, that flavor :
 A great / good guy in whom there was no guile.
